IMPACTING LIVES IN KENYA

V2N2 March 2021

FLMK Lukhuna Worship Center

Our Lukhuna Church is located in a place called Kitale in Western Kenya. The church is still young with about 40 members. It is led by Pastor Andrew Kimungui who is devoted to serving faithfully. Despite the fact that the church is growing with faithful members who are willing to propel its growth, they face challenges that keep on pulling them backwards.

Among the challenges faced is the issue of having a building of their own.

They fellowship in a classroom in one of the schools in their area. The school permits them to conduct their services on Sundays only and only if they don't have any school activities going on. Most of the

members in that church come from the slums, making it even harder to conduct a fellowship in their homes. Some have drunkard husbands who won't allow church activities in their houses. Within the week they must ensure that a clear program is made to guide them on how to meet. They therefore need a land on which they can build their church and worship freely without disturbance. We are praying and also asking those who are willing

to support this particular branch to please do so.

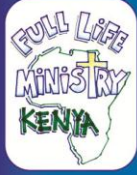

TRIUMPHANT GRACE ACADEMY

TGA resumed its classes in January and the school is going on well apart from many challenges faced on a daily basis. The children have been going through a lot while at home, but we thank God since many of them have managed to come back to school. Among them is Valentine Aidi, a grade four girl who is working hard in spite of difficulties at home. She is an orphan who lost her parents to HIV/AIDS and lives with her grandmother.

Her life has been an uphill battle due to daily struggles with hunger, sickness and school work. It has not been easy for her because she also is HIV positive. So to stay strong while taking her medication, she has to eat well, something that is a mere dream. Most of the time she survives on two meals a day and sometimes she consumes the medicines on an empty stomach. The porridge she takes while at school helps her so much but there is a challenge when schools are closed or during weekends. Before, she had a problem with jigger infection but through treatment

given to her by FLMK she has recovered and healing. We are praying that God provides a way in which she can get help. I believe that through hard work and determination she can soar to greater heights only if she can be given support that will ensure stability of her health.

FUTURE AND ONGOING MINISTRY VISION

As we outlined above our Lukhuna Church truly needs their own land to be able to build. We are praying God will lay this need upon someone in a position to accomplish this large goal. Depending on what comes available it would cost between \$6,000 - \$8,000.

Valentine receives a small support for her TGA needs, but as described above she really needs direct managed support. A monthly \$35 support would cover most of her ongoing needs.

Lastly this month I bring our School TGA before you to consider. We still need \$20,800 to put with the \$15,600 we have received to build what the government is requiring of us. That breakdown is \$5,200 per each classroom. Because of covid and the government we have had to delay any building, but we are trusting God will direct all things...

Thank you... each of you who help support these people in Kenya. Our trust and supply is in Christ who uses people like you to enable our labors.

Our website fulllifeministrykenya.com provides our mission, who we are and our history with pictures and videos from our beginning in 2014.

FLMK is a 501c3 organization in the USA
