## **IMPACTING LIVES IN KENYA**

V2N7 August 2021

### **FULL LIFE MINISTRY-Western Region**

FLMK churches located in the Western Region of Kenya include Malava, Igunga, Gavalagi and Manyatta, our Headquarter church. Each church was birthed out of a need to reach unbelievers in regions far from Manyatta. Each of these churches are doing well and their growth is steady. These are some who have graduated in our Discipleship Training Series.

Among various ways we use to bring teachings to our congregants is the use of DTS discipleship books. These books provide essential foundational truths, such as why we need salvation, who we are in Christ, attributes of God, our enemy and much more. They enable our people to memorize verses and build their Christ-Follower skills. We have trained a team of discipleship teachers who are rising up qualified disciples. The Bible teaches this method which we are following as our example, duplicating it in our churches. Transportation to bring these men and women to our headquarters facilities is costly. Some places such as Malava are very far which necessitates the need of accommodation and meals. The zeal of reaching out to people in these places is big, but in truth finances are a challenge. We are praying and requesting God to touch the hearts of some of you that FLMK can continue teaching and training the many who desire to obey the command to go. (*Matt. 28:19-20*)

### **FULL LIFE MINISTRY- Eastern Region**

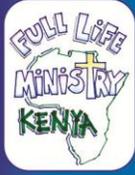

Kitui County is located in the Eastern part of Kenya. The County at large has been experiencing drought and famine for over a period of 30 years. It is inhabited by small scale farmers whose efforts have many times been rendered futile by the consistent effects of drought and famine. Some communities are to some degree, survive on drought tolerant crops.

Kamwingi, a village where our FLMK Church is located in this area. Most people have very little or no food at all. The only green vegetation available is scarcely shared. There is no water and all the riverbeds around are dry. People walk long distances, digging down into the dry riverbed to obtain water for cooking and drinking. Livestock, mostly goats are suffering from skin disease and malnutrition. The government, a few churches and some NGOs have been trying to help but many continue to die from lack of water and food.

This is our Pastor Nugu, his wife Purity and their 2 children Mercy and Kenny. Since 2014, they have served Kamwingi faithfully while suffering many hardships. They along with their small congregation have planted the only crop that can grow there. These “Green Grams” only need a few small rains. But, of the 6 years planting, only 3 years produced a harvest. They serve in a “hard place” and are sold out to their Lord to preach, teach and love the people of this desolate land. do not seek a handout, but they seek God to provide through those who are able. We therefore are making an appeal to well-wishers out there who can reach Kamwingi village to please offer help because they are in an interior area and often miss any help given to those areas. They need food and we can start with at least 100 sacks of maize and 100 sacks of beans. This will sustain them for the next nine

## **FUTURE AND ONGOING MINISTRY VISION**

We are praying and trusting God to guide those of you who may have the means to help. We know that many of you pray for our pastors, their families and those they have been sent to serve. May our God abundantly bless you!!!

If you would like to help, here are a few ways to accomplish that.

Western Region - \$35 to \$85 to transport, feed & house a Pastor or Leader for training. *(The amount differs depending on where they will travel from.)*

Eastern Region – \$60 Green Gram planting seeds *(To plant 1 acre)*  
– \$40 Maize 90kg bag *(Can help feed a family of 4 for 2 months)*

FLMK is a 501c3 organization in the USA
