## Making An Impact for Christ

V3N12 December 2022

### November Missions Trip – Successful...

Last month after I arrived at Jomo Kenyatta Airport in Nairobi Kenya, I sat down with a cup of Masala Chai to wait for Bill's arrival later that day. When I walked to the terminal he would be arriving at, there was no great fan fair such as when another country's dignitary arrives. Little did anyone know that an ambassador of Jesus Christ whose Kingdom is not of this world was arriving.

After most had already come out of the building, I welcomed Bill to Kenya. We had a few hours before our last flight so we enjoyed a meal and discussed the way forward...only God knew how the mission would go and the lives that would be changed, some for eternity.

Our flight arrived in Kisumu where Pastor Omega was waiting. We drove to our first destination, Maragoli. Mama Yvonne, Pastor Omega's wife prepared Bill's first home-cooked Kenyan meal - Mchele, sukumu, kuku & chai.

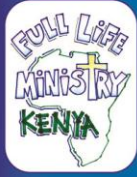

Our visit to Brian's home brought much joy to the whole family with the addition of a goat, soccer ball & some needed food items. It was Bill's 1<sup>st</sup> time to see Brian face to face after sponsoring him at his school, TGA. Later, we all tried our "skill or lack of" controlling the trajectory of the new soccer ball. The goat will really make a difference in the life of the family because of the milk as well as being able to give birth in the future...

We went out evangelizing in Maragoli. God had went before us as we shared the Gospel. I believe on this day six professed Jesus Christ as becoming their Lord and Savior. We gave bibles to those who now have started a new journey out of darkness into life... To God Be All The Glory!

Bill gave a short message of encouragement to a few who gathered at the Igunga Church since it was in the middle of the week. We later gathered outside the home of one of the church members after enjoying fellowship and a meal together.

In our October Newsletter, we spoke of Nancy a widow, who needed help starting a business to support herself and her two children. Bill had seen the need before leaving the US and decided with his family to make a difference. With six kuku (chickens), two bags of charcoal, firewood and boga (vegetables) her new business became a reality just a small distance from her home on a newly built display table. Also, with a new phone she is able to order additional stock as well as communicating with her customer base. She will

now be able to earn her daily needs.

Traveling next to our Mailisaba Church near Uganda we went out to evangelize, praying with some and leading a few young men to Christ. On Sunday, the church prayed for Bill as he shared his missionary call.

After worship, we reviewed a few who had recently completed New Life In Christ in FLMK Discipleship Training. The next day we traveled into Kitale to visit the land we now have for our Lukhuna Church. We will be building soon as God makes provision.

Bill was greeted by one of our Muslim girls as we entered. These precious children depend upon our school for a Christian education. They prayed awe began our TGA PP2 Graduation ceremony.

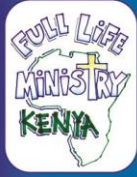

In our old school building, Bill was introduced to one of our classes. Then we toured construction of the new six classrooms.

Our Ugi (porridge) program provides a meal each school day for every child. On our visit Tuesday, Bill handed out porridge to each our children...

## Miracle at Kindinye (Short Version)

Seven years ago, Godfrey burnt a tree down which had been used by witchdoctors for years. The same day he became insane, became a drunkard and he burnt down his own family's home. His wife took their children and left. Three years ago, Godfrey was witnessed to with the Gospel of Jesus Christ and became a born-again Christian.

His life began to change as he attended FLMK Manyatta Worship Centre. He later asked the church to pray with him that God would restore his marriage. One of the projects we set for Bill's trip was to build a Manyatta (wood/mud) house for a needy person. We chose Godfrey because he was needy, he had shown himself faithful and he also had become a hard willing worker.

On the day we drove to the building site, Godfrey along with some other laborers had already constructed most of the wooden framework laced with 1" to 2" saplings. When we returned from our trip to Mailisaba, we went to see the matope (mud) work that had been done to the structure.

As you can see from the pictures, it was a glorious and thanks filled day. The funds we had allotted were already finished, but Bill decided to purchase doors and windows! He flew out on the 23<sup>rd</sup> and did not get to see the finished work.

Prayer Request: \$5,800 is needed to complete our six classroom structure and prepare each classroom with a teacher desk and student table-benches. The Kenyan government is requiring that we have all construction completed and everything in place before January 23<sup>rd</sup> 2023.
